O-Rings, Gaskets and Sealing Materials

We Add Value To Every Order
Along with our extensive inventory of materials, custom design and fabrication capabilities, we offer value-added services including inventory management, bar and color coding, special packaging, lot traceability and EDI capability.

Want Superior Seals And Exceptional Service?
Call 716.684.7600 today.
Fabrication/Capabilities/Application Support

Plus, we offer complete design and fabrication services, and application support. From prototyping through production of small, medium and large runs, Sealing Devices is your true one-call, single source supplier.

Sheet Gasket Material
- Non-Asbestos
- Compressed Sheet
- Nitrile
- Vicorprene
- Silicone
- Cork Rubber
- Viton®
- Teflon®
- Hypalon®
- Glytron®
- Ethylene
- Propylene
- Vellumoid
- Closed Cell Sponge
- Beater Addition
- Grafoil®
- Conductive Elastomers
- Rogers/Bios®
- Rogers/Parabak®
- Thermoculite®
- Sigma®
- Extruded Cords
- Round and Square Elastomers
- Urethane
- Conductive Elastomers
- Spliced and Vulcanized O-Rings and Gaskets
- Open & Closed Cell Sponge
- Molded Rubber Parts
- Transfer Molded
- Compression Molded
- Custom Parts
- Sponge
- Injection Molded
- Other Products
- Siltemp® Cloth
- Ceramic Rope, Sheet, Paper
- Norseal® Foam Tapes
- Expansion Joints
- Fiberglass Ropes, Tapes, Cloth
- Vibration Dampering Materials
- Boiler Gaskets
- Sound Dampering & Materials
- Teflon® Coated Fiberglass Tape
- Friction Materials
- Vespel® Plastics
- EMI Shielding
- Grafion®

DIE-CUT GASKETING
- Rubber Molding & Application Assistance
- Splicing/ Vulcanizing

Long with the most comprehensive selection of sealing products from leading manufacturers, Sealing Devices offers superior service from experienced professionals. Our capabilities include:

- In-house die-making
- Engineering support
- State-of-the-art quality systems
- Experience with most sealing materials
